## What to do in the Event of a Failure

1. Prevent Further Damage - You should use all reasonable means and precautions to protect Your Unit from further damage. This Policy will not cover damage caused by not securing a timely repair of the failed component.
2. If Your Unit breaks down, return to the Issuing Dealer during normal service department hours. If this is not possible, take Your Unit to the licensed repair facility of Your choice (You may contact Administrator for assistance in locating a repair facility).
3. Instruct the repair facility that they must obtain an authorization number from Administrator prior to proceeding with repairs. The amount authorized is the maximum that will be paid. Any additional amounts need prior approval.
4. In some cases, You may be required to authorize the repair facility to inspect or tear down Your Unit to determine the cause and cost of the repair. You will be responsible for these charges if the Failure is not covered by this Policy. Administrator reserves the right to require an inspection of Your Unit prior to any repair being performed. We reserve the right to move Your covered Unit to another repair facility.
5. After Administrator has been contacted, review with the repair facility components that will be covered by this Policy.
6. We will reimburse the repair facility or You for the cost of authorized repairs performed on Your Unit, less any applicable Deductible. All repair orders and necessary documentation must be submitted to Us within thirty (30) days by You or repair facility to qualify for payment.

**NOTE:** If a breakdown occurs when Administrator's office is closed, emergency repairs can be performed. Policy Holder may proceed, without prior authorization, and reimbursement up to \$300 will be made to Policy Holder in accordance with Policy provisions, providing Administrator is contacted within five (5) business days from date of repair.

## Repair Facility Guidelines for Claims Handling

### Follow these steps when handling a claim:

1. Advise **Policy** holder that evaluation of a **Failure** does not mean that the repair is covered under this **Policy**. All covered repairs must receive prior authorization from **Administrator**.
2. Have **Policy** holder authorize inspection/tear down of the Unit to determine **Failure's** cause and cost to repair. Save all components, including fluids and filters, should **Administrator** require outside inspection. Notify **Policy** holder that cost of tear down will not be paid if it is determined that the **Failure** is not covered under this **Policy**.
3. Determine the cause of **Failure**, correction required and cost of the repair(s).
4. Contact **Administrator's** Claims Department at **800-995-0290** to get authorization to proceed with the claim. Be prepared with the following information when placing the call:
  - a. Customer's Name and **Policy** Number.
  - b. Cause of **Failure** and recommended correction.
  - c. Cost of repair(s).
5. A Claims Advisor will verify **Coverage** and do one of the following:
  - a. Approve Claim - If approved, the authorization number must be recorded on the repair order. The authorized amount is the maximum that will be paid. Additional amounts must receive prior approval.
  - b. Require Additional Evaluation, Inspection or Tear Down- **Administrator** may require an inspection prior to repair being completed. If a tear down is required to determine cause of **Failure**, **Policy** holder must authorize same. Notify **Policy** holder that if the repair is not covered, then **Policy** holder will be responsible for cost of the tear down. Repair facility should save all components requiring inspection, including fluids and filters. The Claims Advisor will arrange for the inspection. If inspection is not made within forty eight (48) hours, contact the Claims Advisor.
  - c. Deny the claim and provide the reason for the denial.
6. Review **Administrator's** findings with **Policy** holder as well as what will be covered by **Policy** and what portion of the repair(s), if any, will not be covered.
7. Obtain **Policy** holder's authorization to complete repair(s). All repair orders must have customer's signature to qualify for payment.
8. Submit the repair order(s) that must include the **Policy** number, authorization number and authorized amount to **Administrator** within thirty (30) days to the following address:
